

Welcome To The *Pre Competitive Team*

More Than Steps - Skills for Life

Pre Competitive Teams

Reach Your Full Potential

Our Pre Competitive programs are built on the foundation of teaching our students good sportsmanship, commitment, work ethic, and dedication.

Gain Performance Experience

It's time to let your child develop their confidence. We believe in giving dancers the opportunity to shine and also make an impact in the community through performance opportunities and healthy competitions.

Develop Confidence and Goal Setting

Soul Connexion is dedicated to providing a positive outlet for dancers to develop confidence, set goals and belong to a team that works together. These valuable skills will help them in all aspects of life.

Learn Life skills that go beyond the studio walls

We connect with our students through dance and inspire them to become their best versions of themselves. By learning team commitment, work ethic, communication skills, and expression, we are setting our dancers up with life skills for life.

dance, breathe, live

"In the past 5 years that my daughter has been with Soul Connexion, she has grown so much as a dancer. All of the teachers we have worked with are kind, caring, motivating and inspiring. The studio cares so much about its families and the community. We are so proud to be part of it." - Mel R

"When I dance, it makes me feel free and some of my best friends have come from dance." - Alex H

Reach Your Full Potential

Our Pre Competitive programs are built on the foundation of teaching our students good sportsmanship, commitment, work ethic and dedication. **We strive to communicate the values of kindness, community, passion, positivity, authenticity, and creativity to our dancers** while giving them a space to do what they love and to provide a positive outlet for them to express and release.

Pre Competitive dancers 6+ will have opportunities to perform and compete and require additional rehearsals outside of class time. Attendance and team commitment are mandatory to join the team. Dancers will also have opportunities to participate in Pre Competitive solos, duets and trios. Our Pre Competitive team is an additional investment and is perfect for those who want to experience a taste of competitive dance without a busy dance schedule.

Requirements and Mindset

To be accepted into our Pre Competitive dance program, you need to be recommended by a dance teacher for an annual Pre Competitive dance class or audition and be placed in your recommended level. Dancers must be in at least 2 classes - 1 Ballet Pre Comp and 1 Jazz Pre Comp to participate.

Our goal is to ensure every dancer is placed in their most appropriate level based on skill, age, and interest.

To keep a strong mindset, dancers are required to come to class in proper dance attire & hair each week.

Artistic Director

Miss Cara is dedicated to helping children learn life skills through dance. She believes that when the mind is strong, children can reach their potential. Soul Connexion places a heavy emphasis on building confident children through dance and ensuring all dancers are inspired and challenged.

Benefits of Dancing With a Pre Competitive Group
